

GO GREEN PLUS WITH SOUTHLONDON.BIZ

Southlondon.biz works with local authorities and environmental organisations to support businesses to Go Green. We offer companies an intense support, mentoring and advice on the six essentials to Go Green: Energy - Waste - Recycling - Transport - Water - Purchasing.

Our team of Greening Business Advisers can provide you with the best advice and assistance. We use the most up-to-date information to develop a plan to reduce your environmental impact, meet legislation, enhance your company's profile and reduce your costs.

Project Aims and Objectives

- Demonstrate real environmental & financial savings
- Offer businesses customised, sustainable and efficient solutions
- Reduce overall levels of CO² and consumption of natural resources
- Complement the sustainable communities agenda by impacting on inefficient energy & waste practices

Business Support

- 12 hours support tailored to suit the business needs
- On-site audit to gather baseline data
- Development of an action plan & support with its implementation
- Assistance with the development of an Environmental Policy
- Monitoring, assessment & feedback

Why should businesses Go Green Plus?

- Our support is completely FREE
- Compliance – meeting legislation and making the most of government financial support
- Increase your profit margin
