However, those infants who are fed infant formula will not need vitamin drops until they are receiving less than 500ml of infant formula a day, as these products are fortified with vitamin D. Request details: Planning Applications

I would like to know how many planning applications, since November 2011, have been rejected, or had restrictive conditions attached, as a direct result of objections raised during the process of consultation.

For the sake of clarity: I am only interested in applications that could have been permitted on regulatory grounds but were rejected/restricted purely due to local objections.

If this data is unavailable or onerous to gather, a reasonable alternative would be to provide the number of applications which were recommended for approval by the Planning Department, and subsequently rejected by the Planning Committee.

In either case, I would like a list of the relevant planning application numbers.

Request details: Feedback Alton Masterplan

Under a Freedom of Information request we seek to have copies of the feedback that has been provided to you and your team as listed in both the February and July Consultation reports.

This feedback being listed within the following documents;
Alton Area Masterplan Interim Consultation Report February 2014
Section 2 - all of those with a written response such as the Putney Vale Residents Association as well as those that provided a verbal feedback such as Regenerate.

Alton Area Masterplan – Preferred Option Consultation Report July 2014
The following sections - all those within Written stakeholder feedback (2B) and Verbal stakeholder feedback (2C) and Local businesses (2D).

As a side comment, where responses have been received from Roehampton Partnership members such as the Putney Labour Party and Roehampton University, these should have been distributed and discussed as a matter of course within their advisory roles within this group.

Additional feedback request
Interestingly, Wandsworth Borough Council paper 14-447 states within point 22 that

“The 20th Century Society were also consulted at each stage of the process, who would favour a refurbishment approach to development rather than redevelopment in the Danebury and Harbridge areas. However, proposals regarding the parkland, upgrading of public realm, development at Portwood Place with retention of bungalows were supported”.

This group is not mentioned within either the February or July reports and given this group seems the least supportive of the regeneration, it calls into question whether this has been done deliberately.

The feedback for the 20th Century Society is also required please.
