This includes: materials reviewing whether they should be introduced, consulting local stakeholders, or explaining their introduction; materials exploring the impact of 20mph limits in your area; and materials outlining reasons for not implementing 20mph limits, if this was decided.</li> <li>If your council has introduced any 20mph limits, on what proportion of roads have you done so, on a sign-only, area-wide or zone (traffic-calmed) basis? (Should you not have the precise lengths of roads that have been treated in this way, an estimate of the proportion of road types that have 20mph limits would be useful, for example 20mph zones with traffic calming are in place around 90 of schools, and 20mph limits of some form are in place on around 50% of residential roads).</li> <li>What are your future plans for (a) the (further) development of 20mph limits and/or (b) consideration or review of whether to implement (more) 20mph limits</li> </ol>
