**Request details:** Wheelchair Accessibility

---

Part 1:

A) Accessibility Strategies

Please could you send me a copy of your Council's Accessibility Strategy, that complies with Schedule 10 of the Equality Act:

<http://www.legislation.gov.uk/ukpga/2010/15/schedule/10>

B) Transport

Does your local authority's school transport contract include the provision of wheelchair-accessible coaches available to mainstream schools for trips?

Part 2: Data

Please include responses to the following questions in respect of the state-funded secondary schools only, including academies and free schools.

1. What is the total number of secondary schools in your local authority area?

2. How many of these are:

a) RED. Not wheelchair-accessible - it would be impossible or very difficult for a wheelchair-user to learn alongside her/his disabled peers at the school, because, for example, all or most of the main buildings that have upper floors do not also have lifts OR there are an insufficient number of disabled toilets on site OR most of the main buildings and areas of the site are not accessible via level access or a ramp. In practice a RED school would have difficulty timetabling teaching to allow several wheelchair-users to receive a mainstream education.

b) AMBER. Partially wheelchair-accessible - a wheelchair user could follow a mainstream curriculum at the school, but a significant proportion of the site is upstairs and not accessible via a lift OR some main buildings do not have a disabled toilet OR one or more of the main entrances to your school has stepped access. In practice an AMBER school would have to undertake some rearrangement of the timetable to allow a wheelchair-user to receive a mainstream education AND/OR the child would have to take some circuitous routes around the site to reach teaching and recreational areas.

c) GREEN. Fully wheelchair-accessible - all (or at least 90% of) teaching areas are accessible to wheelchair users, there are lifts to upper floors where applicable, and disabled toilets are provided in all main buildings. In practice a GREEN school would not have to rearrange the timetable to cater for a child following the mainstream curriculum who uses a wheelchair.

**Request details:** Council Tax

---

The request is for the questions below, 1.A to 3.C, answered for the financial years 2004/05 up to and including 2014/15.

I will try and outline and explain what I am seeking for each element of the request.

1.A Total number of domestic council tax liability orders issued. I hope that this is self explanatory.

1.B Number of households receiving domestic council tax liability orders. I understand that this number would be distinct from the total number of liability orders, and remove any 'double counting' from the above figure.

1.C Total sum of unpaid domestic council tax (before recovery). This would be the total amount of council tax that the authority has pursued in the particular financial year, not regarding any successful or unsuccessful actions to recover these sums.

1.D Total sum of unpaid domestic council tax (after recovery). This would be the total amount of unpaid council tax after any recovery attempts. I appreciate that this may be problematic where recovery stretches beyond the financial year in question, if possible could you please calculate this sum based on when the debt itself was incurred rather than deducting from future years when recovery occurs.

2.A Cost for raising a summons (Paid to the Council). These two questions both relate to the fees charged to council taxpayers as processing fees. I understand that there are two sides to the equation, fees charged by the council and fees charged by the courts. Please could you record both where they are distinct.

2.B Cost for liability (Paid to the Magistrates).  
See above.

3.A Total number applications for discretionary relief received. Although I understand that the system has changed significantly in recent years, could you please record details for both schema.

3.B Total number of households granted discretionary relief. The total number of successful applications.

3.C Total monetary sum of discretionary relief granted. The total value of all successful applications.

**Request details:** Leasehold Interests Granted to Overseas Companies

---

I am also seeking information from your property management database about the granting of leasehold interests to overseas companies, as well as the disposal of freehold and leasehold interests to overseas companies. To be 100% clear, I am not requesting information about the current ownership of land and property which is available from the Land Registry upon payment of a fee, but rather information held by your authority about land and property transactions with or involving overseas companies. If it will incur no additional time or expense, I would also be grateful for the requested information in respect of the last decade rather than the past three years, or else as far back as your digital records allow - I am content to leave the final time frame at your discretion.

Please note, the following questions all relate to financial assessments for domiciliary care. By domiciliary care, I mean care provided to clients at their home, not care provided in care homes.

Please provide answers for each of the past five financial years, including the current financial year to date.

1. How many times did the local authority make a "deprivation of assets" decision (i.e. decide that prospective or actual domiciliary care clients intentionally deprived themselves of or decreased their assets in order to reduce the amount they would be charged towards domiciliary care)?
  2. How many times did the local authority launch an investigation into whether a deprivation of assets had occurred, using powers set out in The Regulation of Investigatory Powers Act 2000?
  3. How many times were deprivation of assets decisions successfully appealed?

**Reference:** 12020 **Received:** 29/10/2015

**Request details:** Temporary Accommodation

---

In the year 2014, how many households leaving temporary accommodation were there:

1) In total.

2) Who had been living in temporary accommodation for:

- a. Under 6 months;
- b. 6 months to 1 year;
- c. 1 year to 2 years;
- d. 2 years to 3 years;
- e. 3 years to 4 years;
- f. 4 years to 5 years;
- g. 5 years to 10 years;
- h. More than 10 years.

3) Who had the following number of placements during their time in temporary accommodation:

- a. One placement;
- b. Two;
- c. Three;
- d. Four;
- e. Five;
- f. Six;
- g. Seven;
- h. Eight;
- i. Nine;
- j. Ten or more.

N.B. for purposes of this FOI, a placement counts as a period of time living in one property. So if a family were living in temporary accommodation 'House A', were moved to temporary accommodation 'House B', and then were moved back to 'House A', this would count as three placements.

If data collection does not allow for counting in this way, please explain and give the closest possible data.

---

Follow up to request reference 2015/11751:

1: For the financial year 2014/15, the amount of money set aside to rebuild, repair or maintain state schools in your local authority - this relates to the money the Council received to maintain its schools in 2014/15.

2. For the financial year 2014/15, the amount of money it was expected to cost to rebuild, repair or maintain state schools in your local authority - this relates to the money the Council estimates it would take to fully repair the backlog of school maintenance in 2014/15.

Essentially, I want to want how much the Council will have to repair schools, and how much more it estimates it'd cost to fully do the job. These two numbers are most likely to be different
