Request details: LA Support for Refugees

I am writing to request for data relating to support which the Local Authority is providing to refugees – most particularly Syrian refugees affected by the ongoing conflict in the region.

I am interested in whether the Council has enrolled in the various central schemes which have been established to support refugees; how many refugees you support under these schemes; the policies you have in place to ensure people in the local community can provide assistance; and the central Government funding you receive to provide this assistance.

By my understanding, there are a number of ways in which refugees, asylum seekers and persons under humanitarian protection can end up in the borough, but the information the Council will hold on these groups will differ. I am interested in three particular groups of refugees / persons under humanitarian protection, all of whom should be known to the council:

1. People Supported under the Vulnerable Persons Relocation Scheme (VPRS): This is the main scheme for supporting Syrians who are seeking asylum in the UK, and I understand Local Authorities have to voluntarily sign-up to support people through this scheme. People supported through the VPRS receive five years' leave to remain and are granted the status of persons under humanitarian protection, rather than refugees per se. They are entitled to welfare support on the same basis as UK citizens. The Government has set aside some £460 million to assist with Local Authority costs for the first year of the scheme, and £130 million for the four years thereafter, with higher funding for year 2 than year 5. This inevitably raises questions about whether Councils have sufficient central funding for the scheme, and I am keen to know your thoughts on this.

2. The Gateway Protection Programme (GPP): I understand that under this scheme, refugees receive Indefinite Leave to Remain and are also entitled to public funds on the same basis as UK citizens. Again, it is up to Local Authorities if they wish to participate, but if they do the Home Office provides funding for all their support in their first year of arrival. It is unclear who takes up the cost of funding in the years thereafter.

3. Unaccompanied Asylum Seeking Children (UASC): Finally, unaccompanied children can claim asylum in the UK. It is of course the responsibility of Local Authorities to carry out an age assessment of any individuals claiming asylum in this category, and referrals could come in from a range of bodies – including the police, UKVI or UK Border Agency staff. If accepted, Local Authorities then have a statutory responsibility to carry out an assessment of their needs and to support all children in need in their area. Local Government receives central funding to provide for these children, but it is capped at a set level and I am interested in knowing whether it is sufficient for councils in London.

With this in mind, I would be grateful if you could provide the following information:

1. How many refugees, asylum seekers and persons under humanitarian protection, under each of these schemes, resided in the Council in 2013/14, 2014/15 and 2015/16; and if applicable, how many does the Council expect to support in all subsequent financial years up to 2019/20?

2. What assessment have you made of the costs to the Local Authority of supporting these individuals under each of the above schemes in each of the financial years from 2013/14 through to 2019/20?

Freedom of Information Act requests for: May 2016

3.(a) For each of these groups, are you satisfied that you have been given sufficient Central Government funding to meet these additional costs to the Local Authority, for each of the years which it is anticipated they will be resident locally?
(b) If not, what was the funding shortfall for each scheme the years 2013/14, 2014/15 and 2015/16, and what is the anticipated funding shortfall based on current trends for the subsequent financial years up to 2019/20? Please provide a single figure for each scheme on the overall level of the funding shortfall when all participants in each scheme are taken into account.

4.What measures is the Council taking to ensure that (a) individuals (b) Private Rented Sector landlords (c) Housing Associations and (d) other organisations who wish to help support refugees are able to play their part? For example, does the Council operate a register which enables such individuals or groups to come forward and offer to assist in housing and helping these refugees?

5.With respect to Unaccompanied Asylum-Seeking Children:
(a)How many assessments were carried out by the Council in 2015/16 to establish whether migrants were Unaccompanied Asylum Seeking Children?
(b)What was the average length of time it took to carry out these age assessments in this year?
(c)What was the longest length of time it took for the council to carry out an age assessment in this year?

I am interested in the amounts paid by each school in Wandsworth LEA to third parties in relation to temporary staffing cover. My hope is to receive an electronic breakdown of amounts paid through the department's purchase ledger by school.

Notes:

2. In order to avoid your having to collate information from peripheral systems, I am willing to accept information only from your main system.
By main system I mean the system that handles the largest part of the department's expenditure. If supplier payments are made through separate systems, then I would like you to choose the main system for each.
3. The information I require for each school is: School Name; Supplier name and total amount paid.

2b) And if they were, how many arrests were made? And, if recorded, what for?

2c) Was there a following criminal court case, and if so what for? Against how many people? And what was the outcome? (As if there was, you would most likely have to attend as a witness to the trespassing or submit evidence and so could potentially record this information).

Request details: Council Tax

Please note - all questions are net of awarded benefits, discounts and exemptions. This request relates to net collectible debts:

1. The total council tax charged to all council tax payers (including Council Tax Support claimants) during the course of 2015/16 (2015/16 tax only)
2. The total council tax collected from all council tax payers (including Council Tax Support claimants) during 2015/16, as of 31st March 2016 (2015/16 tax only)
3. The total council tax charged to all "non-protected" Council Tax Support claimants (excluding pensioners) during the course of 2015/16 (2015/16 tax only)
4. The total council tax collected from all "non-protected" Council Tax Support claimants (excluding pensioners) during 2015/16, as of 31st March 2016 (2015/16 tax only)

5. The total number of council tax accounts that were in receipt of working age Council Tax Support at some point during 2015/16 (if known)

In questions 3 and 4, "protected" means those claimants who are entitled to a maximum of 100% support (prior to income-based means testing) under the council's 2015/16 Council Tax Support scheme – this will include pensioners, and may include disabled people, lone parents etc, depending on the council's CTS scheme. Note – this includes claimants who are required to pay some council tax due to the income means test, but are nevertheless "protected" groups under the council's CTS scheme (needless to say, a claimant who is ineligible for CTS once the means test has been carried out is not considered a claimant). "Non-protected" means those falling outside protected groups – this will essentially mean most working age claimants.

If data is not held (or is not obtainable within the section 12 cost limit) for questions 3 and 4, please provide data for the following questions 6 and 7:

6. The total council tax charged to all working age Council Tax Support claimants (excluding pensioners) during the course of 2015/16 (2015/16 tax only)
7. The total council tax collected from all working age Council Tax Support claimants (excluding pensioners) during 2015/16, as of 31st March 2016 (2015/16 tax only)

I am also requesting the following information, which the council need not respond to if doing so would contravene the section 12 cost limit:

8. The number of working age Council Tax Support claimants with current attachments to benefits for the payment of outstanding council tax
9. The number working age Council Tax Support claimants with pending attachments to benefits for the payment of outstanding council tax, where the pending attachment is "queued" behind a previous year's ongoing attachment
10. The total amount of council tax charged to Council Tax Support claimants covering 2013/14, 2014/15 and 2015/16
11. Of the question 10 figure, how much has to date been written off?

The information the council supplies for questions 1-4 depends on how the council records such data – if the council does not hold the data in the requested form for any question, it is not expected to examine individual council tax payer records to create the data. This should ensure that the section 12 exemption does not arise.

If data is not available as of 31st March 2016, please provide the most recent data available preceding 31st March 2016 (please state the date the data is correct to).
