Residents and businesses

Stormont Road area
(area bounded by Lavender Hill,
Cedars Road, Clapham Common North Side
and Altenburg Gardens)

Dear resident or business occupier,

Stormont Road area – traffic management scheme

In 2006 the council's executive approved a scheme, to address the issue of through traffic using the Stormont Road area residential road network (see plan for this area). Following a series of subsequent meetings with Transport for London, who are responsible for Clapham Common North Side, and the emergency services (Police, Fire Brigade and Ambulance Service) the council is now in a position to consult with residents and businesses on the proposals.

The proposed measures aim to minimise the use of residential roads by through traffic, by ensuring that this traffic remains on the designated route, Clapham Common North Side, especially during peak times. This is proposed to be achieved by implementing either part time restrictions that would operate during the morning peak traffic flow period or full time turning restrictions to operate 24 hours. The proposals also include the reversal of the direction of traffic flow on Lavender Gardens. These proposals are shown on the consultation document overleaf.

The actual periods for the proposed traffic restrictions would be determined following this consultation exercise. An 'experimental traffic order' would be used if it is decided to implement these restrictions. This allows the council to review how effective the measures have been, within a specified time period, before deciding whether or not to make the order for the restrictions permanent.

The council wants to know your views before making a decision on whether to proceed with the proposals. **Please complete the questionnaire and return it by 13 December 2009.** The postage has been prepaid.

Should you require any further information or assistance do not hesitate to contact Matthew Taylor on (020) 8871 8208 who will be pleased to help you.

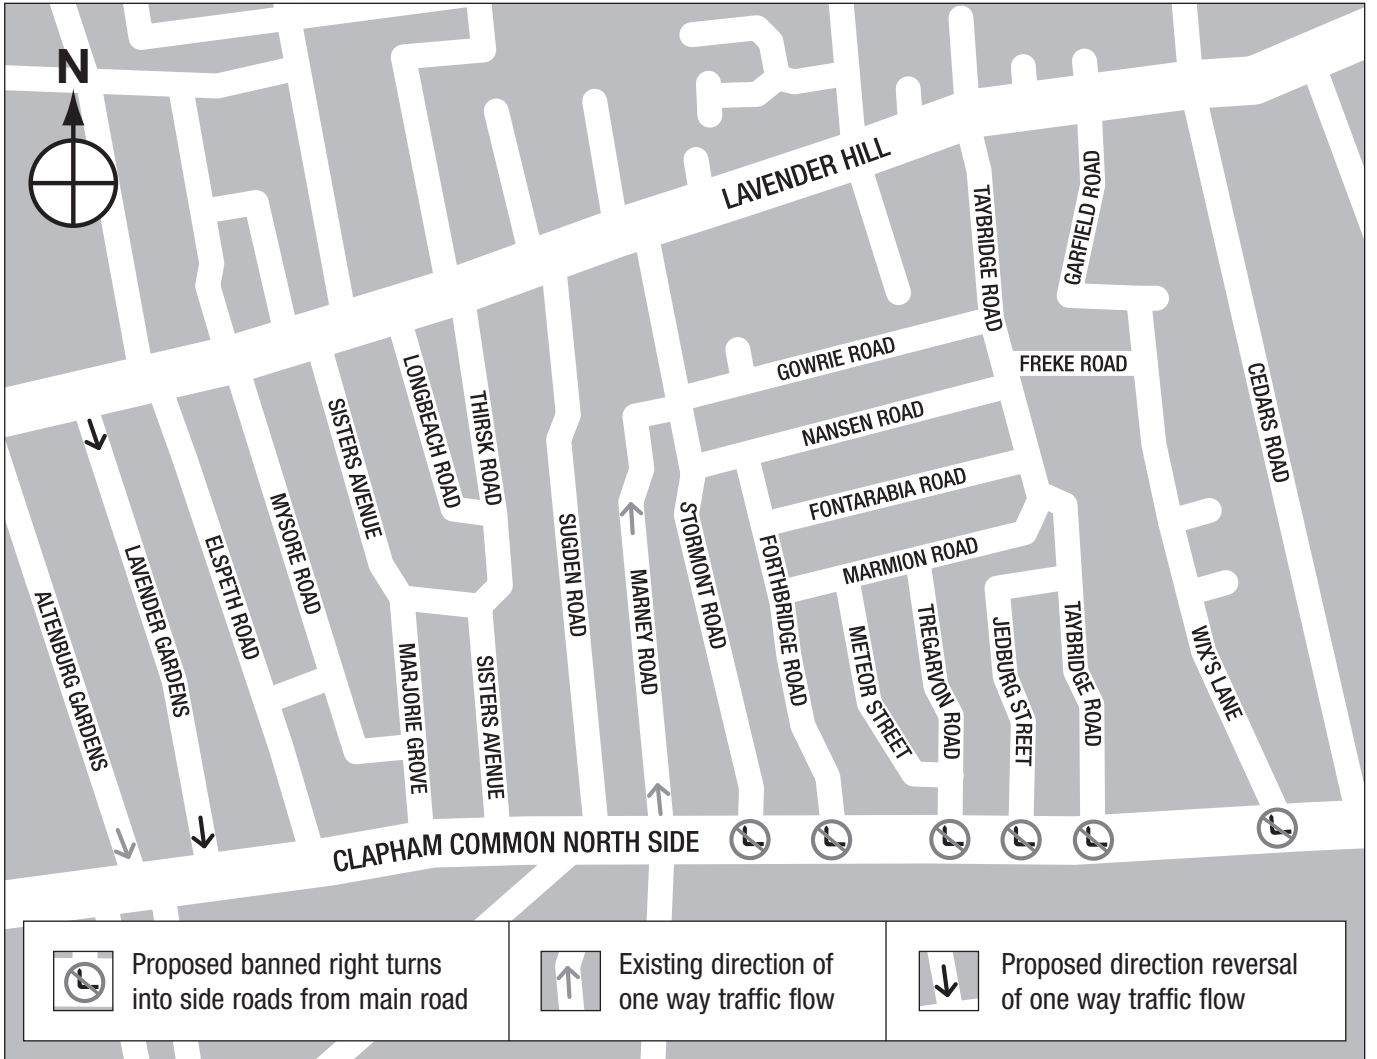

Yours faithfully

Steve Kempster
Assistant Head of Operational Services

Director of Technical Services: William G. Myers OBE
