**Concerning the property of i and others of mankind: Tooting Bec Common,
off Cavendish Road, London (SW12 oPP)**

To: the **man or woman** of mankind who at times acts in the capacity of The Commons
Team of the Planning Inspectorate

i: the woman, birgit waiswa, state, that i live near said property of i and others;

i, say i, do not consent to Wandsworth Council's proposal to carry out restricted works on
Tooting Bec Common by way of building commercial football pitches on Tooting
Triangle;

i, state that i, four days ago on 10 December 2020 received an email from the man, ben
jackson, who says there are five things (1. - 5.) that follow here which Wandsworth Council
did omit to mention in regard to said proposed pitches, and that any man or woman who
does not consent to said works to be done to said property of i and others should write an
email to commonlandcasework@planninginspectorate.gov.uk :

"1. The facility will become the base of a selective club with 28 teams and play at semi professional
level;

2. The new facility will be charged out at £70 an hour per pitch - the council's communications

don't even mention charging;

3. There has been no assessment on parking around the common, despite the developer claiming 1,000s of players use similar venues at peak times;

4. The damage millions of microplastic particles will cause on the common once the 38,500 sq feet astroturf is laid - alongside the effect of floodlighting a natural and informal area of common seven nights a week until 9pm;

5. What the public think. In their submission, the council also fail to mention the 10,000 strong local people who have petitioned against this development, claiming only a few hundred objected;"

i, say since i, did receive said email on 10 December, i, did review the paper work that the man, Paul Martin who at times acts in the capacity of Chief Executive and Director of Administration of Wandsworth Council, did send on 12 November 2020 in his notice to apply for consent to carry out restricted works on Tooting Bec Common to you, the wo/man who at times acts in the capacity of officer of the Commons Team of the Planning Inspectorate, to you, who is tasked by authorisation of the people of this land known by the name of Great Britain to decide said application:

<https://wandsworth.gov.uk/planning-and-building-control/planning-consultations-and-developments/tooting-common-application/tooting-triangle-sports-facilities/> ;

i, state in said notice to you, the man, Paul Martin says that in view of a pandemic, a copy of the application is not left in a public area for viewing. and that, where possible, "representations" should be made to you by email ON (or before) this day, 14 December 2020 to: commonlandcasework@planninginspectorate.gov.uk ;

i, notice you, herein that i, do not consent to the works which the man, Paul Martin proposes to you, to be carried out on the common land known as the Tooting Triangle on Tooting Bec Common; i, do not consent to the proposed loss of trees and loss of crowns of trees - i, consider felling and pruning trees to be unjustified in terms of climate change and wildlife habitat destruction; i, do not consent to loss of free common access to community space such as the youth or boxing club and the Redgra pitch; i, do not consent to the proposed installation of flood lights which would destroy some of the last dark skies in South London and with that, wildlife habitat; i, do not consent for 28 semi-professional football teams to make noise for the proposed twelve hours a day, seven days a week, all year around, to cause commute, traffic and parking issues; i, do not consent to artificial

pitches that contain chemicals and heavy metals which would be transported off the pitches by wind, weather, people and laundry of sport kits and hence, would cause harm to wildlife and ecosystem; i, do not consent to fencing off this large area of the property of i and others so that it would no longer be available for free use by i and others of mankind;

i, state that section 39 of the Commons Act 2006, requires you, the wo/man who acts as officer of the national authority in said Act, in this instance the Planning Inspectorate, in determining an application for consent in relation to works on land to which that section applies, to have regard to the public interest;

<https://www.legislation.gov.uk/ukpga/2006/26/section/16>

a) i, require you, the wo/man to deny the application of the man, Paul Martin for Wandsworth Council for

1. in the first instance, prior to the planning committee's hearing on 19 May 2020, the man, Guy Humphries, who at times acts as Councillor for Wandsworth London Borough Council and as Chairman for the Council's Planning Applications Committee, did fail to consult with those five thousand (5,000) of mankind who did already on 16 May 2020 express the public interest, in this instance that 5,000 of mankind do not consent to said proposed works;

2. in the second instance, at said hearing on 19 May 2020 by ignoring for decision on the hearing day those non-consenting voices of 5,000 of mankind and by allowing the proposal be approved regardless, the man, Guy Humphries did fail to take into due consideration the public interest;

i, state, as evidence for lack of due consideration of public interest expressed by 5,000 of mankind on the part of the man, Guy Humphries, i, direct you, to the following article on the london news online of 16 May 2020, accessed by i today, 14 December 2020:

<https://londonnewsonline.co.uk/thousands-sign-petition-to-stop-commercial-pitches-near-tooting-common-playground/> and

to the website of the man, ben jackson, also accessed by i today, 14 December 2020:

<https://you.38degrees.org.uk/petitions/protect-tooting-common>

3. in the third instance, after what i, describe above did happen in May of this year 2020, with his application to you, of 12 November 2020 the man, Paul Martin, did disregard the public interest by ignoring the non-consent to the proposed works that earlier 5,000 and up to today 7,757 of mankind did express;

i, state i, as evidence for lack of due consideration of the will of i and mankind on the part of the man, Paul Martin, direct you to the website of the man, ben jackson above and to following website, both accessed by i today, 14 December 2020:

<https://wandsworth.gov.uk/planning-and-building-control/planning-consultations-and-developments/tooting-common-application/tooting-triangle-sports-facilities/>

Documents reviewed by i include for example:

--> appendix_10_notice_advertising_the_application-1.pdf

--> appendix_4_1_planning_report.pdf

--> planning_application_balham_bat_habitat_assessment_report.pdf

i, state i, as further evidence for lack of due consideration of the will of i and mankind on the part of the man, Paul Martin, and with regard to the outdated bat habitat assessment, direct you to the following websites of how floodlighting affects insects and other wildlife, "Light pollution a reason for insect decline" and "Light polluton is key 'bringer of insect apocalypse' ", both accessed by i today, 14 December 2020:

<https://www.sciencedaily.com/releases/2018/06/180619122456.htm>

<https://www.theguardian.com/environment/2019/nov/22/light-pollution-insect-apocalypse>

b) i, say i, require you, direct Wandsworth Council to the solution which least impacts i and others of mankind who did elect those of mankind as officers of Wandsworth Council to administer the property of i and others of mankind: to make post due improvements fast to the Tooting Triangle area by way of draining the recurrent floodings and by refurbishing the Balham Boxing and Youth Club - question is what keeps those of mankind working for Wandsworth Council from putting the council tax paid by i and others to good use;
