**In regard to no consent of i to commercialisation to the property of i and  
others of mankind: common land known as Tooting Triangle on Tooting Bec  
Common (SW12 oPP)**

Greetings to the woman, Naoual Margoum;

i: the woman, birgit waiswa, write to you, in regard to the email you, did send to me on 29  
March 2021 which i, did receive and read on 3 April 2021;

i, state i, did also read what you, did send to i as attachment to said email which you, call  
the "applicant's statement": seventeen pages the woman, Joanna Shearman did write;

As a woman, i, write to you, a woman to remind you to be the **public servant** to we of  
mankind you work for; you are welcome to share this reminder with

- the woman, Joanna Shearman who at times acts as Leisure and Culture Contract  
Manager for Wandsworth Council,
- the man, Paul Chadwick who at times acts as Director of Environment and  
Community Services for Wandsworth Council and
- the man, Paul Martin who at times acts as Chief Executive Officer for Wandsworth  
Council;

i, ask how you, intend to maintain access to all land known as Tooting Triangle for all of mankind, to maintain the upkeep of a conducive environment for mankind and wildlife; with for example the following questions in mind:

1. how does fencing off an entire area for use of only a few via an "online booking system" maintain access for all of mankind;
2. how do "subsidised" or free "entry" to such fenced off area compare to the free access each and everyone of mankind has to the common land now;
3. there are currently no floodlights in use on the Triangle; where is the evidence that installation of flood lights will NOT destroy some of the last dark skies in South London;
4. for example the bat report was outdated already in March 2020 - where is the evidence that wildlife habitat will NOT be destroyed by commercial football pits;
5. where is the evidence that artificial grass pitches which contain chemicals and heavy metals that can easily be transported off the pitches by wind, weather, people etc, will NOT cause harm to wildlife and Earth;
6. why does your attachment state the "Council's Children's Services Department has... permanently closed" the children's club (page 15 of your email attachment) when Labour's Hannah Stanislaus "fought and won to protect the children's... club at Tooting Triangle and for a public toilet at the Cafe" (see her enclosed leaflet copy);
7. why does the Council not provide an adequate solution for the flooding problem in the area outside of commercialisation of the Triangle;
8. what do i, pay council tax for if not for the upkeep of amenities;
9. how do you satisfy yourself that you do right by the thousands of mankind who did say 'no' to the commercialisation of the Tooting Triangle in 2007/2008, in 2012 and now in 2020/2021;

i, say i, require you, to do right by the wishes of i and the thousands of we of mankind who use the common land at Tooting Triangle:

- open access to common land for all means open access to such land for all;
- provide evidence for any claim that you, might make as to why open access for all does NOT mean open access for all;
- provide evidence for any claim that you, might make as to how the commercialisation will NOT harm i, others of mankind and wildlife by way of artificial grass polluting the environment we live in.
