Subject: Habitat Regulations Assessment

Dear Piotr,

We are currently completing a Integrated Impact Assessment (IIA) for the Regulation 18 stage of the Local Plan review – Employment Land. As part of this work we would welcome your advice as to whether we need a Habitats Regulation Assessment based on the IIA of the Reg 18 options.

My colleague Sara Dixey has been leading on the IIA work and emailed you in December drawing your attention to the Reg 18 consultation. We would welcome a discussion or a meeting to clarify if a HRA is required and at which stage.

Kind regards,
Adam.

Adam Hutchings
