

Alton Estate, SW15

Bessborough Road Garages

Meet the Contractor Event

17 June • 6:30 to 8:00pm

Come along to meet the contractors from Kind and Co and Homes for Wandsworth Team.

You will hear about the development of the existing garages and car parking spaces by Highcross Way, Bessborough Road SW15 4LL.

Also, about the demolition of all existing structures and garages and erection of a part single, part two/three storey building to provide eight independent supported housing units (Use Class C3) with associated cycle, vehicle parking and landscaping.

There will also be improvements to the adjoining lower car park and surrounding area, providing better access and more green spaces along with a fully refurbished and more inclusive existing play area.

We will also update on some of the employment opportunities that will be made available to residents on the site.

There will be lots of opportunity to ask questions about how the development will affect parking, noise, dust control measures, how long the work will take and other Health & Safety matters just to mention a few
