The 'Cobenefits' of Climate Action

Who are Ashden?

The National Energy Foundation and Energiesprong UK

High-impact retrofits

UK Award for Sustainable Buildings

SMV Green

A rickshaw revolution

Award for Sustainable Mobility

London Borough of Waltham Forest Streets worth celebrating

Award for Clean Air in Towns and Cities

Alcaldía de Medellín Growing a cooler city

2019 Award for Cooling by Nature

Changing the conversation

We asked ourselves the question:

Does stopping climate change really mean just giving things up?

Our work in towns & cities

create that support.

Climate action – co-benefits

Climate action

Health

Economic opportunity and job creation

Equity and social cohesion

Resilience

Ashden Some actions result in many co-benefits:

	Carbon	Health	Economy	Equity	Resilience
Action	CO ₂	0	E	ATA	
Insulating homes	Cuts energy demand and cuts carbon emissions	Reduces fuel poverty as people stay warmer	Creates jobs for local people, and people save money on their energy bills which they may spend locally	Increased access to affordable warmth	Households are better placed to withstand future energy price rises as well as overheating during heatwaves
Cycling	Reduced fuel consumption cuts carbon emissions	Reduced NOx from combustion engines improves air quality. Increased activity increases health	Money saved on petrol. Reduced congestion	Increased connections to local community through cycling initiatives	Resilience to future increase fuel costs

Thank you
