

SUPPLY WANDSWORTH

Supplier directory

SUPPLY
WANDSWORTH
Local suppliers • Major buyers

2024 -2025

Introduction

■ The London Borough of Wandsworth is committed to supporting local businesses to grow, develop and thrive, ensuring that it serves all. Our new Supply Wandsworth Directory will make it as easy as possible for buyers to find Wandsworth-based suppliers of goods and services. It's a comprehensive list of local small and medium-sized firms based in Wandsworth, with details about what they can offer, and how to get in touch.

Supply Wandsworth is all about making sure local businesses are in prime position to win public and private sector contracts. It's about buyers thinking local first, supporting their community and achieving real social value through their procurement.

It's part of a range of support from Supply Wandsworth and the Economic Development Team, including training, mentoring, guidance and the creation of a strong network of buyers and sellers across the private and public sector - sharing knowledge and information about new opportunities in the Borough. Further support can be found at our Wandsworth Enterprise Hub website which is a one-stop platform designed to help and inspire entrepreneurs to start-up, reset and grow their Wandsworth business. See link below - wandsworthenterprisehub.com

We want Supply Wandsworth to be as strong as possible, so please get in touch to find out how you can get involved.

Foreword

■ Wandsworth Chamber of Commerce is a long-established membership organisation that connects, supports, promotes and provides opportunities for local businesses to grow.

Our mutual partnership with London Borough of Wandsworth and the Economic Development team has proved a positive relationship that helps to continually serve our local business communities.

Since 2023, the chamber has worked closely with the EDO team to support, share and promote the Supply Wandsworth initiative, a localised procurement programme which aims to ensure SMEs / businesses, in the borough have the information and expertise needed to tender for public and private sector contracts, enabling them to grow.

The Wandsworth chamber endorses and supports this supplier directory as a comprehensive list of local suppliers who are fit to tender for upcoming contracts, we encourage buyers across both sectors to consider this as a valuable resource when purchasing services, goods and works provisions in the borough.

Beverley Corson

Wandsworth Chamber of Commerce CEO

Food by Toby

Food by Toby is a small, family-run catering business based in Tooting. It started by making a few salads and sandwiches for local clients, which we delivered by bicycle. 14 years later, and we now have a broad range of clients across London, we include retail supply, events and hospitality plus some television and film crew food as primary business activities. Husband and wife team Toby and Ruth both have many years of catering and customer service experience, gained in both commercial and contract environments.

We initially became a supplier for Wandsworth Borough for the Get Active initiative in St George's Park, where we supplied a healthy salad bar stall for attendees. This in turn led to other bookings where we provided hospitality catering for council events.

Catering for the Meet the Buyer event was a super opportunity for us to showcase what we are capable of to a large number of organisations also based here in Wandsworth. It was a pleasure to cook for so many local businesses and educational providers, and get so much positive feedback on the day.

Cooking for the Meet the Buyer event helped establish new connections within our community, and gave us some new ideas on how to push the events side of the business forwards. It was also great to have the event at Tooting Works, where we are based, as it demonstrated how we can work together with our landlord to deliver great events for clients.

■ Business Activities

ITC has been successfully building great projects for over 30 years; our experience in refurbishment and fit-out means that we know how to create a space that works for you – whether that's a commercial, healthcare, education, leisure, or public sector environment.

Examples of recent works

Client Croydon Council

Project Name Community Equipment Service Unit

Approx Value £3000000.00

Comments Our team worked with Croydon Council to refurbish and remodel an existing warehouse facility into a storage facility and office for the relocation of the Communicate Equipment Services Unit. This project included installation of – Flood Doors, Thermal Cladding, New roofing, New Security Cameras, Delivering new design works, Developing and renewing a fire strategy.

This project came under the Considerate Contractor's scheme requiring ITC to ensure that all works were carried out in a safe and considerate manner with regards to pedestrians and road users, and that local traffic flow wasn't affected. In order to minimise the carbon footprint of the refurbishment, all the timber extracted from the property was recycled by a local charity, and a complete heating package was installed, with new boiler and radiators, hot air space heating, and a split-air conditioning system in the warehouse.

Yellow Signs

Last year, at a Wandsworth Chamber of Commerce breakfast networking event we met the contract managers from Battersea Power Station. We subsequently became one of their approved suppliers and have been supplying high-quality signage to them regularly. Working on projects for such an iconic building has been a fantastic opportunity for us to showcase our expertise and creativity in the signage arena.

Being involved in such a prestigious project has allowed us to forge even stronger relationships with the local community, as well as with other businesses and organisations in the development.

Being recognised as a supplier for Battersea Power Station has provided a significant boost to our company's reputation and credibility in the industry. It has certainly helped us to secure other contracts with potential clients wanting to use a company that is a supplier of such a well-known brand.

We are proud to be an approved supplier for Battersea Power Station and hope to continue to be so for years to come.

JFG

Communications

JFG Communications have supported us with public affairs and strategic communications services for almost two years, with services varying from political analysis and insights through to communication planning, social media and newsletter content.

Most recently JFG has helped us to develop and deliver a regional strategy hub, which has convened stakeholder experts to gather evidence on complex transport issues and formulate policy recommendations for government and industry.

We especially value JFG's specialist transport policy expertise and wide-ranging industry and political connections, alongside the personal service they bring as a small, specialist agency."
